

Offer your pet all the benefits of veterinary care all year long.

Our adult dog wellness plan can help your pet stay fit and healthy as they age and help us catch any potential problems early, when they're easier to treat or manage.

Regular veterinary exams can help your pet live longer!

During your pet's wellness exam, we will perform a physical assessment, checking your dog from nose to tail. We will make sure your pet receives appropriate vaccinations and preventives. We may also recommend other options to keep your dog fit and healthy.
