

Offer your new pet all the benefits of veterinary care during their first year.

Spaying or neutering your pet has many benefits.

The procedure, which prevents female or male animals from reproducing, can help your dog or cat live a longer, healthier life.

During your pet's wellness exam, we will perform a physical assessment, checking your dog from nose to tail. We will make sure your pet receives appropriate vaccinations and preventives. We may also recommend other options to keep your pet fit and healthy.
